

Pet Pumpkin Carving Instructions

1. Open the top of the pumpkin and clean it out, scraping the flesh thinnest in the region in which you'll carve the design. Use a photocopier to enlarge or reduce the pattern to fit the pumpkin.
2. Attach the art guide to the pumpkin with tape.
3. Use a pin to make pin pricks along the stencil lines, piercing the paper.
4. Use thin crafts or wood-cutting knives to carve the pattern. Cut completely through solid lines. Simply peel away skin within dotted lines to enhance features. You may want to etch before you carve to avoid breaking the pumpkin.
